Up Tuition For Grade Schools

Tuition for attendance at either the Antioch or Oakland grade schools for the 1960-61 school year by children living outside the grade school district was raised to \$360 per year.

The cost was upped from the present \$320 at a meeting of the school board of education Tuesday evening.

Board members explained that rise was in line with other schools in the area and due to the cost per capita of educating a child going up.

Mrs. Caryl (Hockney) Anderson was contracted to teach the first grade at Oakland school and Stanley Anderson to instruct seventh and eighth grade science at Antioch.

Willow-Dale Dairy was awarded the contract for supplying the grade schools with 1/2 pints on its low bid. Others making offers were Hawthorn-Melody, Beatrice Food, Co., Pet Milk and Dairy Lane.

Supplying 25-ton oil-treated stoker coal was given the Antioch Lumber and Coal Co.

Standard Oil was given the job of supplying fuel oil. Other bidders were Tewes, Hughes, Jefferson, Rice and Liberty.

A plan to add a locker-shower room to the Oakland school was relayed after an architects plan cost for the work was estimated at about \$22,700. The architect's plan was rejected, as being too high in cost.

A temporary budget for the 1960-61 school year was studied but no action on it was taken.

Salaries for cafeteria help, school secretaries and school custodians were approved.

Plans and specifications for the project are on file at the home of Bushing on route 2, box 508, Kenosha, Wis., and at the offices of the Milwaukee Builders exchange and of Architect Francis J. Wilson.

Wilson's address is 5626 Sixth Avenue, Kenosha, Wis.

Bids will be received on general work up to 5 p.m. on Tuesday, July 5, and for heating and ventilating work in connection with the addition, up to 5 p.m. on Tuesday, July 12.

A complete legal notice on the invitation for bids will be found elsewhere in this edition of the Antioch News.

EXPLOSION DAMAGE to the office of Charles Cermak Jr., local realtor, is shown in this photograph taken Monday morning. The blast took place early Sunday morning in the kitchen part of the Merry-go-Round Bakery next door in the post office block on Lake street. Harold Young, the only person in the bakery at the time of the blast, apparently was not seriously injured. Front windows of the bakery were blown out and a back door to it was blown across the parking lot. Force of the blast can be seen where concrete blocks at the rear of the oven were tumbled down. Glass in a partition of Cermak's office was broken.

Record Number of Boats, Several Mishaps Listed

FOX LAKE—Fair skies brought a record number of boats for the summer to Lake county inland waters last weekend with several mishaps, but no serious injuries were reported, according to the Chain-O-Lakes Water Patrol.

John Schimel, chief of the patrol, said that the traffic was heaviest on the water so far this season, with some minor violations, most of them by boaters who did not understand "no wake" requirements for boats in channels and specified fishing areas.

A 16 foot outboard cruiser, owned by Elmer R. Dorris, Jr., Chicago, settled into two feet of water on the shores of Grass Lake Sunday after it was damaged in a collision with a 14 foot outboard operated by Maurice Pitman, Batavia.

Two passengers in the Dorris boat and four in the other were shaken up, but reported no serious injuries to investigating patrolmen.

Several said they would have medical checkups by their own physicians.

Also Sunday a 16 ft. 60 h.p. cruiser in Channel Lake struck a floating log and sunk with a two-foot hole in the bow. Wayne Ward, 35, Chicago, operator of the boat, was taken ashore by passing boats.

Earlier in the afternoon, a 12 ft. outboard flipped over in Grass lake amidst heavy boat traffic, throwing Robert T. Grochowski and his brother, Gerry, Skokie, into the water.

Several boats had to swerve suddenly to avoid striking the two men. They were taken from the water by M. P. Huels, Morton Grove, of the Line and Anchor Yacht club, Fox Lake, who also towed the boat ashore.

He was assisted by William Hoster, address unknown, in another passing boat.

Patrolman John Schimel said that the accident occurred when the heavy boat traffic built up choppy waves in otherwise calm water.

Patrol Chief Schimel pointed out that the mishaps occurred in the late afternoon, like other lake incidents on other Sunday or holiday weekends.

He urged particular caution on the waters during these hours to help keep the Chain-O-Lakes safe this summer.

Andy Fink went to Hayward, Wis., on a 10-day fishing trip, returning home Sunday, June 19, "happy, tanned and loaded with fish."

Library to Open Again Monday

Antioch Township's library on Main street in the village of Antioch is scheduled to re-open Monday, June 27, after a week of closing while painters were at work on its interior.

Two ceilings have been replaced with acoustical tile.

No books have been marked due during the week of June 20 through June 25 but anyone wishing to do so may return books by placing them in the "after hours" box near the main entrance.

Some work on re-painting was done last week, but much of it was delayed until this week so workers would have fewer interruptions.

Miss Betty Lu Williams, assistant librarian is expected back from her California trip by the time the library reopens.

New Factory Opening Due

SPRING GROVE—The new International Register factory being built just west of this village near highway 12 may be in operation by the middle of July.

Plans call for the structures finish about July 13, it was learned this week.

As many as 300-400 persons may be employed there initially and it is said that as many as 1,000 to 1,400 will be working there eventually.

A. N. May of Richmond has had the contract for erecting the building.

Pfc. Cardiff Returns

Pfc. Donald Richard Cardiff, who has just finished four years in the U. S. Air Force, returned from Great Falls, Mont., where he was last stationed, and spent the past week with his parents.

He has now enrolled in summer school at Northern university, at DeKalb.

Firemen's Dance Slated At Station on Saturday

The 47th annual dance of the Antioch fire department will be held in the local fire station Saturday evening, June 25, holders of tickets were reminded this week.

Firemen put on a full scale campaign not long ago to sell ducats and they reported a very good response.

King Jaros and his orchestra will provide the music.

Three Resign At Hi School; 2 Employed

The resignation of three teachers and the hiring of two new ones were announced by the Antioch Township high school board of education this week.

Mr. and Mrs. Holland Boaz have resigned their position as instructor in industrial arts and librarian, respectively. Mr. Boaz will enter a Kentucky university to start work on his doctor of philosophy degree.

Mrs. Boaz resigned her local post to accompany him.

Two new teachers employed at last Wednesday evening's meeting of the high school board were Bernard Fosmark of Chicago, who will teach English, and Margaret Purman, an instructor in home economics.

The latter now is teaching at Industry, Ill.

Among other items of business discussed and passed on at the session were requisitions for various departments in the school for the 1960-61 year.

The requisition committee made its suggestions to the full board with some recommendations made that lowered the budget requests submitted by department representatives.

Result was that a budget of \$17,560.48 was set up for the departments as compared to about \$18,494 for the 1959-60 school year.

None of the cuts was expected to affect any department's work to any great extent.

LAKE VILLA — Mrs. Rose A. Luford, 27, of route 3, Lake Villa, was in a Waukegan hospital this week after her auto ran off Granada street, west of Lindenhurst early Sunday morning.

No One Injured In Blast Sunday; Police Praised

An explosion that damaged the Merry-Go-Round bakery and the real estate office of Charles Cermak, Jr., next door on Lake street early Sunday morning may have been caused by an oven burner not igniting and thereby building up gas.

That was the theory advanced Tuesday by Northern Illinois Gas company officials who investigated the mishap.

They theorized that when Harold Young, the baker, ignited the burners in the oven, only one of the two there ignited for some reason. The other continued to emit gas and when some amount accumulated, the gas exploded.

The oven was damaged beyond repair and a cement block wall on the east side of the bakery's kitchen was bulged and 25 or 30 blocks knocked into the passageway leading past Cermak's personal office.

WINDOWS in the front of the bakery were blown out and a door at the rear was blasted clear across the parking lot.

Young, who was alone in the bakery at the time, was not hurt.

He says he does not remember too much of what happened, except that he had lit the oven and was about to put in some dough for baking when the blast took place.

The bakery and Cermak's office were covered with a fine white dust from insulation blasted off the oven. Glass in a partition to Cermak's office at the rear of his part of the post office building was broken.

Fire chief Edgar Simonsen was summoned to make sure there was no fire. People looking into the building in the first few minutes after the blast could see little but white dust flying around.

YOUNG SAID he came to the bakery about midnight Saturday and about 45 minutes later came the explosion.

Mr. and Mrs. Young praised the work of Antioch policemen. Stephen Rysko and Jim McPhethorpe who they said rushed through the broken front windows only moments after the explosion.

The two officers were cruising nearby in a police car at the time of the blast and rushed in to give aid if needed.

Damage to the bakery and the real estate office was not estimated as of Wednesday but unofficially it was put at several thousand dollars.

Jim Leksick, a bakery employee, may have proved "it is better to be late than never."

He was due to arrive almost the exact moment of the explosion but was delayed. His normal way of entering is the back door which was blasted across the parking lot.

Eagle Scout badges, one of the highest ranks in the organization, went to Scouts Richard Prossie, William Puckett, David Sherwood and Kenneth Shewan. Delbert Sherwood is scoutmaster of Boy Scout troop 84, sponsored by the Lindenhurst Men's club, of which these boys are members. Puckett and Shewan are residents of Lindenhurst. DEAR READER News Editorials**Sorry, But We Weren't There**

A resident of rural Kenosha county stopped the editor Monday morning to ask if he had "covered" the big grand opening event at a new establishment not far from Antioch the past weekend.

We admitted that we hadn't been there and what was perhaps more important, we didn't even know it was going to take place. "But didn't you read about it in the . . . ?" we were asked. No, we didn't read it in that publication because we do not subscribe to it, we don't get it in the mail nor do we buy it at the newsstand.

We hear there was a huge crowd there and that everyone had a good time. We are sorry that we missed it for usually something like that not only makes a good advertisement which is money in our pocket, but it also makes a good news story both before the event and afterward.

A picture of the place of business would have added much to what was said in the advertisement and one of the crowd enjoying the open house in this week's paper (as a news item) would have been an asset to the place too.

As a newspaper editor, we are invited to many events over a period of a year, and we enjoy such doings. Your Antioch newspaper is always happy to promote the events through ads and through news items.

We hope your next "open house", special sale, new store opening, or "what have you" is promoted through The Antioch News, your local NEWSpaper.

Dear Editor:

On Sunday, May 22, the first of a long series of earthquakes, tidal waves, volcanic eruptions, and landslides hit south central Chile. One-third of the country, over two million people, are homeless . . . without food, clothing or shelter and with the threat of a typhoid epidemic that could kill tens of thousands.

Within four days CARE began supplying its initial commitment of medical supplies, blankets, and hand tools to the Chilean people in cooperation with the American and Chilean Red Cross.

The emergency is far from over. It is predicted that the earthquakes may continue for three more

months. CARE's original commitment of aid has been multiplied over five times in one week . . . totaling over \$100,000.

But the alert and efficient way in which newspapers such as yours act in informing the public results in the contributions necessary for aid. Any feature donations should be sent to: "CARE for Chile," 1 South State Street, Chicago 3, Ill.

The last worldwide need of this magnitude was the Hungarian crisis, when you helped us keep your readers informed. Again we thank you for all of those who have received aid as a result of your news stories . . . in the past, today and tomorrow.

Very sincerely,
Edith B. Kidney, Director

Courthouse Notebook —

At least one Democratic candidate for Lake County office in the November general election is refusing to concede the full slate of county offices to the Republicans.

That would be Donald T. Morrison, Jr., of Highland Park, whose principal law practice is in Chicago.

Durkin

Morrison, the winner in a two man primary election in April, feels that he can unseat State's Attorney Bruno W. Stanczak and is planning an all-out fight against the incumbent in the weeks ahead.

Not widely known in Lake County at the present time Morrison is mapping out a campaign that he hopes will get his name as well-known as that of Mr. Clean, but this is only a part of his campaign strategy.

The Highland Park candidate feels that Otto Kerner, the Democratic candidate for governor will pull a whopping vote in Lake County, even in the Chain O' Lakes region where Governor William G. Stratton can be expected to be particularly strong, and that once the voters switch over from the GOP candidates they will continue right down the line voting for Democrats.

Morrison also predicts a heavy Lake County vote for Sen. John Kennedy if he is the Democratic nominee for President which would also help the Democrats on the county ticket.

Morrison has indicated that he intends to run on the record of the state's attorney's office in Lake County over the past several years and has inferred that he has plenty of ammunition to use in recommending a change in parties in Lake County.

Morrison's feeling that Kerner will carry a big vote in Lake County is shared by many Republican regulars who feel that Gov. Stratton is handicapped by the "third term burden", among others.

Certain it is that Lake County, conceded to the Republicans for many years, will be one of the key areas in the coming election with the Democrats exerting every effort to cut down the GOP margin in this normally Republican area.

State Rep. W. J. Murphy has issued a word of caution to the Lake County Board of Supervisors regarding a series of dams on the Des Plaines river to protect the area served by the river from floods pointing out that Cook County control of the dams would mean that water would be backed up in Lake County to protect Cook County property.

According to Rep. Murphy much of the flood damage along the Fox River this past spring can be traced to the dams near McHenry which kept the water above the normal level and backed it into homes along the river above the dams.

Some safeguards against such action would have to be included in any agreement between Lake and Cook counties for damming the river, but the creation of reservoirs and ponds in the Forest Preserve District which could be used for recreation should be able to prevent flooding when the river rises above its normal level.

Flood control and the development of the forest preserve area should go hand in hand.

State's Attorney Stanczak apparently goaded by repeated instructions to Grand Jurors from Circuit Judge Bernard M. Decker to investigate gambling in all its forms in Lake County really stirred up a hornet's nest.

Stanczak put the clamp on anything that smacked of games of chance including business promotion giveaways, an interpretation of the gambling laws that has merchants in many areas of the county breathing fire.

Most of the fire has been directed at Stanczak, but many people feel that Judge Decker's constant reference to gambling in Lake County has unduly embarrassed the State's Attorney and this is his way of shifting some of the heat back to Hizzoner.

As Time Goes On

The Various Ways of Life Change
MODERNS become ANTIQUES and PRICELESS

In 1910 the car on the left, a SIMPLEX roadster, was a honey, and this PIERCE ARROW of 1911 was forerunner of the modern station wagon.

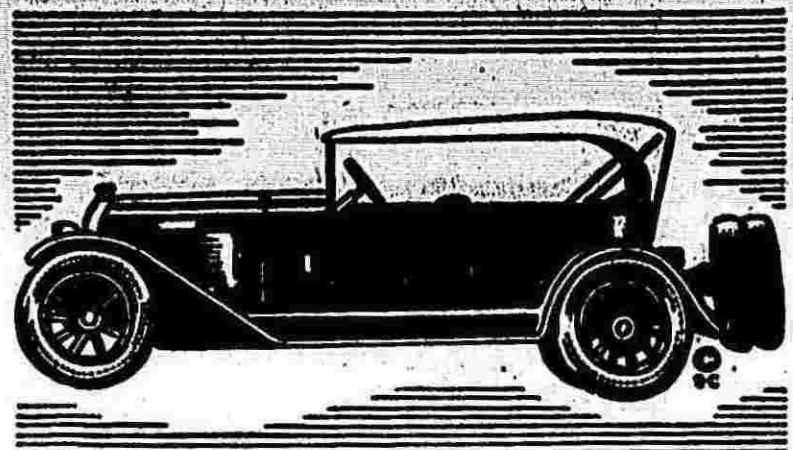

In 1912 this old Charlot was introduced as a Business Man's Roadster

and in 1913 the MERCER Raceabout gladdened the hearts of the sporting class

Bear in mind that these old ANTIQUES were really up-to-date and MODERN IN THEIR DAYS. Right hand drive, various kinds of gear shifts, and it required hours to change those plain-tread tires.

But in 1925 Later Cars had left-hand drives

And this LOCOMOBILE had "streamlines," demountable balloon tires and a "one-man" top

Resurfacing Rte. 173 Bids Due on July 1

SPRINGFIELD—Resurfacing of Illinois route 173 for 11.51 miles between Antioch and Illinois route 42 at Zion will be up for bids Friday, July 1, when the Illinois division of highways receives offers on this and other work.

It will be one of many road jobs on which bids will be received by

the state on that day. Total value of the projects is estimated at \$15 million.

Part of route 173 was resurfaced last year near Antioch, including just west and east of route 21-63 and for some distance on each side of the Deep Lake road.

Why Mercury is the better low-price car!

MORE VALUE. Just look at these Mercury advantages over other low-price cars:

You ride smoother because Mercury has up to 8 inches more wheelbase . . . and is up to 494 pounds heavier. You're more comfortable because of Mercury's extra shoulder room, leg room, and foot room. You feel safer because Mercury's brakes are bigger (up to 26%), and visibility is better (up to 21% more). Mercury has at least two dozen extra values. Why not enjoy them all, and save a little money, too?

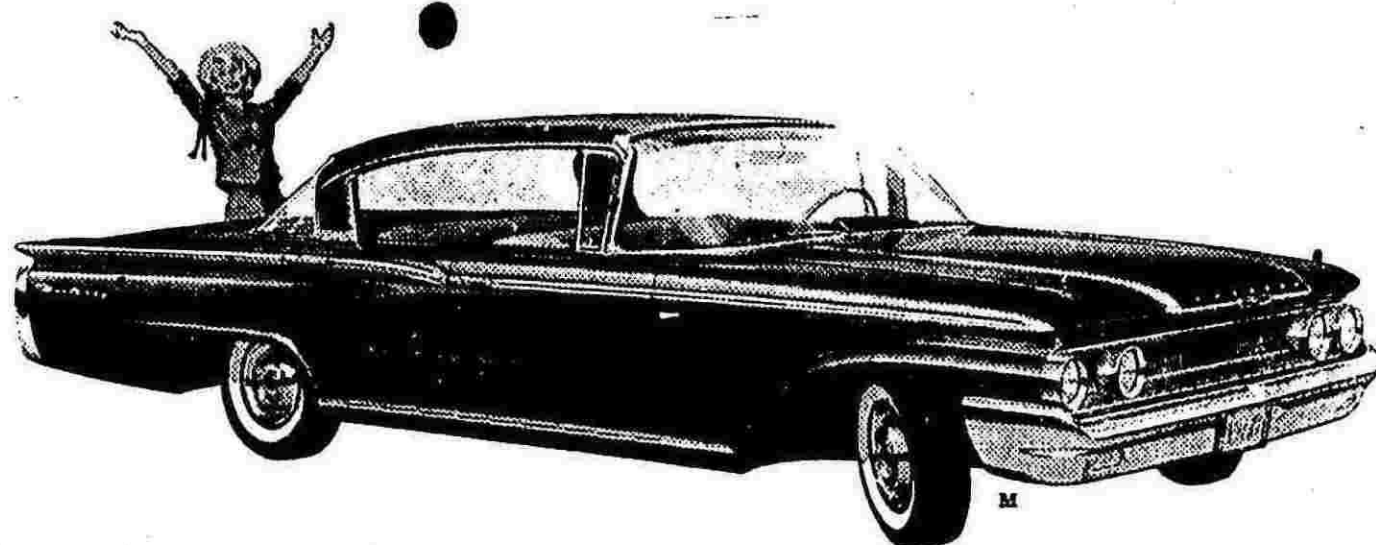

**PRICES START \$63 TO \$66* BELOW
EVEN THE LOWEST-PRICED V-8
POWERED PLYMOUTH FURY OR
CHEVROLET IMPALA.**

And we're not talking about a 'stripped' Mercury. This price comparison is based on a deluxe-appointed Monterey with luxurious nylon interior and deep, soft wall-to-wall carpeting.

This amazing price story is the result of Mercury's dramatic 1960 price reductions (as much as \$174 lower than last year, including extras that are now standard equipment).

Every Mercury is lower priced than last year. All Monterey's are now low-price cars. They are priced below, or within a few dollars of, the other deluxe V-8 series in the low-price field. Come in. See for yourself.

Hi Ho! Circus Is Coming to Town—**Putting Up 'Big Top', Other Tents To Start Early Morning of July 3**

All the sights, sounds, and thrills of Circus Day, which comes but once a year, will be present in Antioch on Sunday, July 3, when Adams & Sells 3-ring circus is here for one day only.

Two full and complete performances at 2 and 4:30 p.m. on the circus grounds at the Village parking lot under the sponsorship of the Lions club.

More than 30,000 square feet of canvas comprise the huge Big Top and Wild Animal menagerie tents which will rise early on the morning of Circus Day.

Traveling on a huge motorized conveyer, the personnel of the Circus swing into action at 6 in the morning and erect the entire circus city between then and the first scheduled performance.

Many different crews of men each have their appointed tasks.

One gang moves around the huge big top canvas as it is spread on the ground driving hundreds of iron stakes by hand in a rhythmic cadence, while another group prepares the poles to raise the huge tent into the air.

Still another group erects the portable grandstand which holds 3,400 persons and the three rings and exhibition areas.

Then the menagerie tent is put up and cages moved into place while grooms feed and water the animals.

While all this is going on, the circus mail man has been busy picking up the circus mail at the post office and distributing it to all and the purchasing agent has been buying hundreds of gallons of gasoline for the motorized fleet and to run the electrical generators which light the show.

He has been to the grocery store for the tremendous amount of food required to feed the circus people, and the cook house tent has sprung up, tables erected and as the circus set-up is completed, personnel file into the cook tent to eat a sumptuous meal while awaiting arrival of the eager crowds.

Even now, the clowns are starting to don their make-up and the equestrians brush and comb their horses while jugglers and tumblers run through a quick rehearsal to keep their skill at its peak.

Out near the main entrance, "candy butchers" as they are called with the circus, are putting finishing touches on their stands and making gallons of pink lemonade and hundreds of cones of cotton candy.

The smell of sawdust and popcorn pervades the air as the ticket wagon opens and the first people come on the lot.

The doors to the world's largest free wild animal menagerie and traveling zoo open for the early comers to amuse themselves.

The air seems electric with excitement as in the background the sounds of a callopie blend with a lion's roar... and it's Circus Time again.

Inside the Big Top, the performance lasts more than 90 minutes, with 30 feature acts in 2 rings.

Everything connected with a genuine old fashioned circus is present with jugglers, tumblers, clowns, wire-walkers, animal acts, and bare-back riders cavorting for your pleasure.

Tickets for the one-day stand are on sale now, and the Lions club urges everyone to buy their tickets in advance and save.

New Post Office Buildings Slated

Post offices—new ones that are becoming like the proverbial "dime a dozen" these days with the announcement that Twin Lakes, as well as three or four others in rural Kenosha county are due to gain such a place.

Silver Lake dedicated a new post office last year and this year so far it has been announced that Salem, Wilmet, Bristol and now Twin Lakes are to have new buildings.

An option has been gained in Salem on the site of the old railroad depot and construction of the new building in downtown Wilmet is expected to start soon.

Reports also say that the post office department is seeking private bids to construct a building at Somers.

Construction of the structure at Twin Lakes will begin immediately and is expected to be completed around September 1.

Famous 3-Legged Dog Of Antioch Is 'Lost'

Bob Martin Will Enter Dartmouth

Special to Antioch News
HANOVER, N. H. — Robert Charles Martin, of Route 1, Lake Villa, Illinois, has informed coach Bob Blackman that he will be a candidate for the 1960 Dartmouth college freshman football team. Martin was one of 775 students selected for the class of 1964 here from among 3700 candidates. Martin played center and middle guard for Antioch Township high school. Standing 6'3" and weighing 215 pounds he was elected all-

Bob Martin

conference and Chicago Tribune and Sun Times all-star teams.

Martin was a member of the National Honor society and student council and was elected outstanding senior boy.

"I'm pleased that Bob Martin hurdled our strict academic requirements and I know he will be a big asset to our Big Green squads for the next four years," commented Coach Blackman this week.

Dartmouth has lost only three Ivy League football games since 1956 under Blackman. He currently ranks fifth among the nation's major college coaches with a winning percentage of .730.

Record Number Turned Out for Spring Sports

"The spring sports program (at Antioch Township high school) was the largest the school has ever experienced," W. A. Lear, athletic director at ATHS told the high school board of education last Wednesday.

"We had 88 boys compete in the two spring sports programs. There were 137 boys reporting to the four coaches. We had good representation from all classes in the program.

"The number of boys that are interested in the spring program would indicate a need for an expanded baseball program and perhaps adding golf to the program.

"We had a high drop-out in the baseball program. This is due to the fact that we operate basically only one team at the frosh-soph level. There were 19 frosh-soph boys that dropped baseball.

"The staff feels that we should operate a frosh team similar to the team arrangement in football and basketball. This would mean adding another coach, of course to work with the freshmen.

"Our track program was by far the best that Antioch has seen. There were 46 boys that completed the season from the 69 that reported early in the spring.

"If this type of participation continues, the coaching staff in track should be enlarged."

"One thing that the board and administration should keep in mind as our school grows is that we will have to operate more teams and squads. It was not too many years ago that Antioch high school had an enrollment of 300 and at that time the athletic program operated as many teams and squads as we are now operating with an enrollment of over 700."

Some Oak Trees Said Infected In Kenosha Co.

Some white oak trees throughout Kenosha county are infected with Oak Anthracnose, according to Lee Smith, horticultural agent.

This disease sometimes infects the burr oak and sycamore trees. The injury appears as small light brown dead areas on the leaves. A portion of the leaf is affected. Some trees appear to be scorched when the disease is serious.

Generally the lower leaves are the ones to be affected. This disease can cause defoliation, especially on sycamore.

As the leaves mature, the disease is checked so that by mid-summer, the trees may look almost normal again.

The fungus lives over winter in dead leaves and thrives in cool, wet spring weather.

Time for control was past this spring. The disease can be prevented by removing all dead twigs and leaves in the fall.

A fungicide spray applied in the spring after the buds open, will control the disease. It requires four sprays, ten days apart.

This disease if often called oak and sycamore leaf and twig blight.

Party Celebrates Baby Christening At Channel Lake

By Mrs. Pearl Kapell

CHANNEL LAKE—A family party was held at the home of Mr. and Mrs. Mike Hruby to celebrate the christening of their new daughter, Michel.

Roger Strattan and Madeline Taylor were godparents for Michel. An outdoor barbecue was enjoyed by the guests.

Mr. and Mrs. William Dowell returned to their home in Los Angeles on June 15, after visiting for several weeks in the Channel Lake area.

The Dowells "jetted" home, leaving Chicago at 5 p.m. and slated to arrive in Los Angeles at 7 p.m.

They really didn't travel quite that fast—they gained two hours somewhere along the way, due to the time difference.

Mr. and Mrs. Thomas Chase celebrated their sixth wedding anniversary on June 12. Accompanied by their daughter, Katherine, and Mr. and Mrs. William Dowell, they visited Holy Hill, Wis., and the Burlington Monastery. On the way home the group stopped at The Angels for dinner.

The Channel Lake Community club met at the school June 14. Various fund-raising activities were discussed, including a roller-skating party and talent show. The group voted to purchase flag poles and standards for Brownie Troop 74.

Stamp Collection for Smithsonian

Maine's Senator Margaret Chase Smith thinks the U.S. Post Office Department isn't fishy enough. Shown here with Richard E. Reed, left, Executive Secretary of the Maine Sardine Council, at the presentation of the Council's topical stamp display to the Smithsonian Institution, the Senator expressed concern that "since the Postal Service was established, our government has seen fit to issue only one stamp honoring the nation's great commercial fishing industry." Leonard C. Carmichael, second from right, Secretary of the Smithsonian, received the display which will hang in the Institution's Division of Philatelic History. Ross F. Leffler, Assistant Secretary of the Interior for Fish and Wildlife, holds one corner of the framed display gathered and presented by the Maine Sardine Council. Some 119 stamps from 26 nations are included in the representative collection.

L. V. Library Story Hours Are Popular

LAKE VILLA — "Reading is a wonderful diversion during a rainy summer," said Mrs. Ted Belke, librarian, of the Lake Villa Township Library.

Children and adults are showing great interest in the special reading programs set up for the summer.

One of the most popular sessions is the story circle Saturday morning for the young children aged 4, to 7. Mrs. Florus Albert, a teacher in the Lake Villa Consolidated School, has been doing an excellent job of reading and dramatizing stories for the very young.

Mrs. Albert has for several years been a scholar and teacher in the field of literature. She recently finished a training course in a Great Books Discussion group.

Her reading talent is being enjoyed by young children in the story circle every Saturday morning. Sponsor of this program is the Lake Villa PTA.

Recent donors to the library have been Charles Wullenbuecher, Mrs. Cecil Anderson, Mr. C. Petty, Mr. and Mrs. John Chmelir, the Theodore Steele family, Robert Rihimaki, Mrs. William Petersen and Mr. Gatte of Balmoral Park.

Mrs. Belke, along with 60 other librarians and trustees recently attended the State Library In-Service Training Institute at Bishop McLaren Center, Sycamore.

Sullivan Tops At Speedway

WILMOT, Wis. — "Lil" Ed Sullivan of Milwaukee, after experiencing tire gripping troubles in the fourth heat, pushed his Thunderbird-powered Ford into the lead on the 22nd lap of the special 35-lap feature at the Wilmot Speedway last Saturday night to win the race.

Pressing hard behind him were Carl Jensen of Mukwonago, who was making his Wilmot track debut; Jack Radtke, of Grayslake, Ill., third; Norm Nelson, Racine, in his new Ford-powered Crosley, fourth; and the Flying Frenchman of Hales Corners, Jim Olet, fifth.

The special 20-lap semi-feature established a track record of 49.49 mph. and was won by Rod "Herr" Fuller of Racine. Second spot went to Roger Irving of Waukegan, Ill. Bob Mace, Chicago, gave the crowd a scare when his new fuel-injected Chevrolet went through the southeast corner fence, plowed through the infield, re-entered the track through the northeast fence and continued on its way.

A crowd of 3,041 fans contributed to driver's purse of \$1,500.

in 1960: Fowles (fresh-soph), Elliott (junior) and Burda (senior).

Hardest workers in 1960 were fresh-soph Doyle and varsity youth Rosquist. Boys who helped others: fresh-soph Ed Rosquist, junior Truelson and senior Walt Rosquist.

Lear Suggests Twilight-Night Track Events

All home track meets for Antioch Township high school athletes would be run as twilight-night meets if the suggestion of athletic director Ward Lear of ATHS to the high school board of education is followed.

Lear told board members at their June session that a special or novelty meet also should be held.

He recommended also that the freshmen and sophomores travel again to Evanston next spring and that the varsity squad participate in the Palatine and Elmwood Park relays.

"One or two boys could go to Naperville or to Oak Park, but not the entire squad," he commented. "The grade school meet should be continued but a person-to-person contact should be made with each grade school principal."

Reviewing the past ATHS track season, Lear said the frosh-soph team finished second in the Northwest suburban conference meet, losing it by a dropped baton in the final relay event.

This group lost only one frosh-soph meet during the entire season. Lear recalled that the Sequoit varsity squad took third place in the conference meet. It too lost only one meet during the season.

Prospects for the 1961 track season were rated as "only fair as far as a won-lost record is concerned."

L. V. Driver Involved In Speedway Smashup

In an action packed program of modified stock car racing, Greg Krieger of Milwaukee out-spied all competitors to score the first clean sweep of the season before 2,700 weather chilled fans at the Waukegan Speedway Sunday night, June 19.

Several accidents and three spectacular roll-overs highlighted the evening's action.

As the red flag came out to stop one race for the second time, Bob Karry, formerly of Waukegan and now of Lake Villa, Ill. hooked wheels in the north turn with another car and was tossed high into the air, rolling over end over end.

The machine rolled along the concrete retainer wall before smashing through the century fencing and ending up in the pit area on the other side of the wall.

The accident wiped out 40 feet of fencing before coming to a stop, but none of the persons in the pit was injured, and Karry suffered only a minor cut on his face. He was not hospitalized.

Nearly 100 communities in the United States are serviced by cast iron water and gas mains still in continuous use after more than 100 years.

Go-Kart Races Sunday At Wilmot's Speedway

WILMOT, Wis. — Go-Kart racing at the Wilmot Speedway in the Kenosha county fairgrounds near Wilmot attracted a large number of racers last Sunday afternoon, even if the size of the crowd watching was small.

The little "Karts" do everything but take off into the stratosphere as they race around the quarter-mile track.

These Go-Kart races will be weekly Sunday afternoon features with the next one scheduled at 2 p.m. Sunday, June 26.

There were plenty of thrills and chills last Sunday afternoon as the first Go-Kart races were held with about 40 of the vehicles in competition.

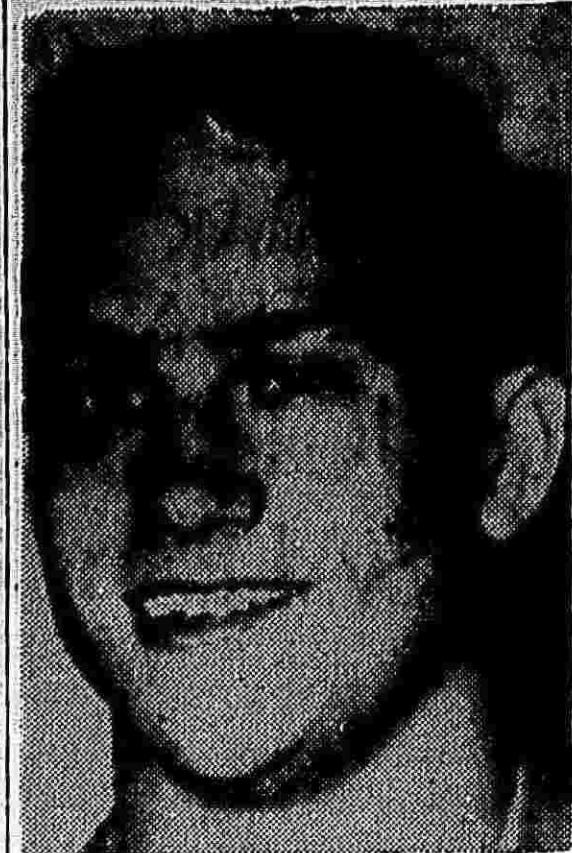

All first place trophies went to Kenosha boys with their two-engine "bombs" but several Antioch drivers came close behind the leaders.

Paul Galati of Antioch placed third in one heat and George Walker of that village had his wheels lock with another Kart, throwing Walker into a wood fence and rolling end over end.

Bruno Manzardo of Antioch found it closer to go over than around some of his competitors.
